TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 13

May 1971 - April 1972

	Month	Page
A comparison of drivers' route choice criteria and those used in current assignment processes, B. P. Ratcliffe	Mar./Apr.	526
A digital simulation model for single intersections with traffic lights, J. J. Klijnhout	Aug.	147
A digital simulation model for single intersections with traffic lights, J. J. Klijnhout: Addendum	Oct.	259
A gravity distribution model: G. B. Good		
(1) A single matrix model	Dec.	342
(2) A two-mode model	Jan.	391
Alternatives for Edinburgh, Professor Sir Colin Buchanan and Anne MacEwen	Mar./Apr.	500
A network rationalisation of public transport services in Teesside, T. J. Pasley & J. Sugden	Mar./Apr.	517
Another look at platoon dispersion: P. A. Seddon		
(1) The kinematic wave theory	Dec.	332
(2) The diffusion theory	Jan.	388
(3) The recurrence relationship	Feb.	442
Area traffic control, Focus on:		
(1) Progress of area traffic control in London, K. W. Huddart and M. J. H. Chandler	Sept.	192
(2) Further results of area traffic control in Glasgow, J. Holroyd and J. A. Hillier	Sept.	195
Area traffic control in Bern, R. A. Vincent	Feb.	430
A review of the development and theoretical concepts of traffic assignment techniques and their practical applications to an urban road network, Chen Chu	Aug.	136
A review of two attitude-behaviour models, A. Harrison	Dec.	330
Car Parking, Focus on:		
(1) Multi-storey car parks: preventing water penetration through roof and floor slabs, E. Dore	Mar./Apr.	535
(2) Whither parking?, J. Brierley	Mar./Apr.	539
Compact, I. H. MacKinder	Mar./Apr.	512
Computerised traffic control in New York City, Theodore Karagheuzoff	May	16
Conference reports:		
Institution of Civil Engineers 'Motorways in Britain' April 26/28. Report by Ernest Davies	June	77
Fifth International Symposium on Theory of Traffic Flow & Transportation. June 16/18. University of California, U.S.A. Report by Richard E. Allsop	Sept.	199
APLE Conference Eastbourne, Sept. 21/24	Oct.	261
Massachusetts Institute of Technology. 'Demand-Responsive Transportation'. July 12/13, Report by P. R. Oxley	Nov.	310
University of Birmingham 'Computer Simulation of Road Traffic' Sept. 21. Report by M. L. Beilby & P. A. Lewis	Nov.	310
Urban Transportation, Institution of Highway Engineers, London, Dec. 9/10. Summing-up by J. T. Duff	Jan.	409
Bus priority symposium TRRL, Crowthorne, Feb. 21-23	Mar./Apr.	520
HRB Annual Meeting, Washington DC, Jan. 17-21	Mar./Apr.	521
Courses in Traffic and Transportation, R. Lane	Aug.	154
Delays to pedestrians crossing a road, Robert Ashworth	July	114
Detectors and traffic control for the GLC's ATC Phase 1 Scheme, D. T. Overton	Oct.	246
Dual-mode road vehicles, S. Penoyre	Sept.	189
Editorial Opinion:		
Eleventh anniversary	May	7
Road and transport research	June	55
Roads programme	July	95
Public transport palliatives	Aug.	133
PIARC at Prague	Sept.	185
SRC and Transport research	Oct.	237
Edinburgh's alternative plans	Nov.	285
Transport 1971	Dec.	329
1000 motorway miles	Jan.	375
Buses in London	Feb.	429
Conference and Exhibition	Mar./Apr.	499
Effect of temporary speed limits on road accidents, Professor Otto Wahlgren	Jan.	384
Estimating speed sample sizes, C. A. O'Flaherty and R. D. Coombe	Aug.	151
Further results of area traffic control in Glasgow, Dr. Joyce Holroyd and J. A. Hillier	Sept.	195
Movement on a city centre footway, C. A. O'Flaherty and M. H. Parkinson	Feb.	434
Multi-storey car parks – preventing water penetration through roof and floor slabs, Eric Dore	Mar./Apr.	535
North Tyne loop study:		
(1) The alternative systems investigated, P. J. Costinett, D. J. Gregg and D. G. McCallum	July	98
(2) Travel forecasting and evaluation of alternatives, P. J. Costinett and D. G. McCallum	Sept.	204
Park-and-ride as a modal choice for the journey to work, A. R. Choudhury	Oct.	252
Pedestrian safety, Focus on:		
(1) Delays to pedestrians crossing a road, R. Ashworth	July	114
(2) The Green Cross Code, E. M. Cawkell	July	116
Progress of area traffic control in London, K. W. Huddart and M. J. H. Chandler	Sept.	192
Progress with 'Speedaway'	Mar./Apr.	558
Public transport assignment – a new approach, K. Fearnside and D. P. Draper	Nov.	298
Public transport in North America, Norman Morton	Aug.	160
Recreational travel in urban and rural areas 2. Hertfordshire countryside survey J. R. Duffell and C. M. Peters	May	31
Report of the Science Research Council Transport Panel, Reuben Smeed	Jan.	394
Research Group in Traffic Studies, University College London, Progress report 1971, R. J. Smeed	Feb.	448
Research into the value of time, Christopher Foster	Mar./Apr.	549
Road research in progress	June	71
Roundabouts and signals, R. S. Millard	May	13
Safety barriers, Focus on:		
The Fitch inertial barrier and its performance in Connecticut, W. J. Kudzia and R. Jain	June	64
Seeing in an underpass, J. G. Holmes	Oct.	260
Service vehicle manoeuvring areas: an informal guide, D. Beale and N. Woor	Nov.	286
Signs and markings, Focus on:		
Test programmes to evaluate traffic paint performance	Jan.	402
SIGSET. A computer program for calculating traffic signal settings, Richard E. Allsop	June	58
Simulation of a pair of intersections, A. F. Rumsey and M. G. Hartley	Mar./Apr.	522
Some applications of computers in traffic engineering, D. Webber	Feb.	445
Speeds on level rural roads, C. A. O'Flaherty and R. D. Coombe		
(1) Background to the study	May	20
(2) The modelling processes	June	68
(3) The speed models produced	July	108
Street lighting, Focus on:		
(1) Seeing in an underpass, J. G. Holmes	Oct.	260
(2) APLE conference and exhibition	Oct.	261
Test programmes to evaluate traffic paint performance	Jan.	402
The comparative assessment of routing options, C. W. Marshall	June	61

	Month	Page
The effect of small road improvements on accidents, J. T. Duff	Oct.	244
The effectiveness of motorway control signals, A. D. May	Aug.	142
The Fitch inertial barrier and its performance in Connecticut W. J. Kudzia and Rajendra Jain	June	64
The Green Cross Code, E. M. Cawkell	July	116
The lognormal headway distribution model, John E. Tolle	May	22
The measurement and interpretation of speed-flow relationships, C. C. Wright and T. Hyde	Mar./Apr.	507
Theory of traffic flow and transportation, Richard E. Allsop (Conference report)	Sept.	199
The Revised U.S. Manual on Uniform Traffic Control Devices, Robert E. Conner	Sept.	201
The second Mersey road tunnel, E. M. T. Powell	July	119
The time function iteration trip distribution method, B. A. Nicholls	Sept.	186
The training of traffic and transportation technicians, H. D. Peake	July	112
The variability of car journey times on a particular route, R. J. Smeed and G. O. Jeffcoate	Oct.	238
Towards a comprehensive assessment of traffic management: the use of a simulation model, G. A. Giannopoulos	July	105
Traffic and transport planning in Southampton, J. B. Cooper	Jan.	380
Traffic characteristics of a discount warehouse, D. T. Silcock	Dec.	346
Traffic data collection and analysis by photogrammetric method, K. Ruhm	Dec.	337
Traffic flow analysis by radar, K. L. Fuller and A. J. Lambell	July	102
Traffic in Camden, A sub-metropolitan study		
(1) Introduction to the Study	Jan.	376
(2) The Traffic Model	Feb.	439
(3) Networks tested and evaluated	Mar/Apr.	530
Traffic models for transport studies in Staffordshire, R. M. Newland	May	25
Traffic, parking and the regional shopping centre, R. A. Bell	Sept.	210
Traffic studies at the University of Manchester Institute of Science and Technology, M. G. Hartley and E. T. Powner	Oct.	256
Transport and planning, Rt. Hon. Peter Walker, MP	May	10
Transportation aspects of a new shopping development, A. C. Dick	Oct.	249
Transportation engineering design for shopping centres, R. C. M. Dunn and G. D. Hamilton	Nov.	292
TRRL and the future, A. Silverleaf	Mar./Apr.	500
Whither parking? John Brierley	Mar./Apr.	539

INDEX TO AUTHORS

Allsop, Richard E. – SIGSET A computer program for calculating traffic signal settings	June	58
Theory of traffic flow and transportation	Sept.	199
Ashworth, Robert – Delays to pedestrians crossing a road	July	114
Beale, D., and N. Woor – Service vehicle manoeuvring areas: an informal guide	Nov.	286
Bell, R. A. – Traffic, parking and the regional shopping centre	Sept.	210
Brierley, John – Whither parking?	Mar./Apr.	539
Buchanan, Professor Sir Colin and Anne MacEwen – Alternatives for Edinburgh	Mar./Apr.	503
Cawkell, E. M. – The Green Cross Code	July	116
Choudhury, A. R. – Park-and-Ride as a modal choice for the journey to work	Oct.	252
Chu, Chen – A review of the development and theoretical concepts of traffic assignment techniques and their practical applications to an urban road network	Aug.	136
Conner, Robert E. – The Revised U.S. Manual on Uniform Traffic Control Devices	Sept.	201
Cooper, J. B. – Traffic and transport planning in Southampton	Jan.	380
Creyke, T. M. R. – Car parking demand in a metropolitan town centre	Nov.	301
Costinett, P. J., D. J. Gregg and D. G. McCallum – North Tyne loop study: the alternatives system investigated	July	98
Costinett, P. J. and D. G. McCallum – North Tyne loop study – travel forecasting and evaluation of alternatives	Sept.	204
Dick, A. C. – Transportation aspects of new shopping developments	Oct.	249
Dore, Eric – Multi-storey car parks – preventing water penetration through roof and floor slabs	Mar./Apr.	535
Duff, J. T. – The effect of small road improvements on accidents	Oct.	244
Duffell, J. R. and C. M. Peters – Recreational travel in urban and rural areas: 2. Hertfordshire countryside survey	May	31
Dunn, R. C. M. and G. D. Hamilton – Transportation engineering design for shopping centres	Nov.	292
Fearnside, K. and D. P. Draper – Public transport assignment – A new approach	Nov.	298
Foster, Christopher – Research into the value of time	Mar./Apr.	549
Fuller, K. L. and A. J. Lambell – Traffic flow analysis by radar	July	102
Giannopoulos, G. A. – Towards a comprehensive assessment of traffic management: the use of a simulation model	July	105
Good, G. E. – A gravity distribution model		
(1) A single matrix model	Dec.	342
(2) A two-mode model	Jan.	391
Harrison, A. – A review of two attitude-behaviour models	Dec.	330
Hartley, M. G. and E. T. Powner – Traffic studies at the University of Manchester Institute of Science and Technology	Oct.	256
Holmes, J. G. – Seeing in an underpass	Oct.	260
Holroyd, Joyce, and J. A. Hillier – Further results of area traffic control in Glasgow	Sept.	195
Huddart, K. W. and M. J. H. Chandler – Progress of area traffic control in London	Sept.	192
Karagheuzoff, Theodore – Computerised traffic control in New York City	May	16
Klijnhout, J. J. – A digital simulation model for single intersections with traffic lights	Aug.	147
Addenda to above	Oct.	259
Kudzia, W. J. and Rajendra Jain – The Fitch inertial barrier and its performance in Connecticut	June	64
Lane, R. – Courses in Traffic and Transportation	Aug.	154
MacKinder, I. H. – Compact	Mar./Apr.	512
Marshall, C. W. – The comparative assessment of routing options	June	61
May, A. D. – The effectiveness of motorway control signals	Aug.	142
Millard, R. S. – Roundabouts and signals	May	13
Morton, Norman – Public transport in North America	Aug.	160
Newland, R. M. – Traffic models for transport studies in Staffordshire	May	25

	Month	Page
Nicholls, B. A. – The time function iteration trip distribution method	Sept.	186
O'Flaherty, C. A. and R. D. Coombe – Speeds on level rural roads:		
(1) Background to the study	May	20
(2) The modelling processes	June	68
(3) The speed models produced	July	108
Estimating speed sample sizes	Aug.	151
O'Flaherty, C. A. and M. H. Parkinson – Movement on a city centre footway	Feb.	434
Overton, D. T. – Detectors and traffic control for the GLC's ATC Phase I scheme	Oct.	246
Pasley, T. J. and J. Sugden – A network rationalisation of public transport services in Teesside	Mar./Apr.	517
Peake, H. D. – The training of traffic and transportation technicians	July	112
Penoyre, S. – Dual-mode road vehicles	Sept.	189
Powell, E. M. T. – The second Mersey road tunnel	July	119
Ratcliffe, E. P. – A comparison of drivers' route choice criteria and those used in current assignment processes	Mar./Apr.	526
Ratcliffe, J. T. – A local area model	Nov.	289
Rumsey, A. F. and M. G. Hartley – Simulation of a pair of intersections	Mar./Apr.	522
Ruhm, K. – Traffic data collection and analysis by photogrammetric method	Dec.	377
Seddon, P. A. – Another look at platoon dispersion		
(1) The kinematic theory	Dec.	332
(2) The diffusion theory	Jan.	388
(3) The recurrence relationship	Feb.	442
Silcock, D. T. – Traffic characteristics of a discount warehouse	Dec.	346
Silverleaf, A. – TRRL and the future	Mar./Apr.	500
Smeed, R. J. – Report of the Science Research Council Transport panel	Jan.	394
Smeed, R. J. and G. O. Jeffcoate – The variability of car journey times on a particular route	Oct.	238
Tolle, John E. – The lognormal headway distribution model	May	22
Vincent, R. A. – Area traffic control in Bern	Feb.	430
Wahlgren, Professor Otto – Effect of temporary speed limits on road accidents	Jan.	384
Walker, Rt. Hon. Peter, M.P. – Transport and planning	May	10
Webber, D. – Some applications of computers in traffic engineering	Feb.	445
Wright, C. C. and T. Hyde – The measurement and interpretation of speed-flow relationships	Apr./Mar.	507

Get a grip on yourshelf . . . !

Eight out of 10 of our readers get rather attached to their copies of *Traffic Engineering & Control* – month by month it's added to their libraries, *retained indefinitely for immediate reference.*

A year's copies can be kept safely together with a sturdy Volume Binder. Finished in maroon leathercloth, this has rod fittings for easy reading – each page will open flat whether the binder is full or not.

When you order, all we need to know is whether in addition to the name of the journal, you require either the volume number or the calendar year to be gold-blocked on the spine.
